## **STOCK EXCHANGE ANNOUNCEMENT**

### **INCIDENT AT BEACONSFIELD MINE**

Allstate Explorations NL (Subject to Deed of Company Arrangement), Manager of the Beaconsfield Mine Joint Venture, has advised that a significant seismic event occurred at 9.23pm yesterday at the Beaconsfield Gold Mine which resulted in rock falls in the mine.

Mining personnel were underground at the time. At this stage, three employees who were working on the 925m level are unaccounted for and their status is unknown.

Mine site management is coordinating the underground search for these three employees and emergency services have been put on standby.

All other employees are accounted for and were not injured.

The cause of the incident is not yet known and underground operations at the mine have been suspended while an investigation is carried out.

The Department of Workplace Standards has been notified and officers are on the mine site assisting in the investigation. The Police have also attended at the mine site.

A support centre for the family and colleagues of those involved in this incident has been established.
